TEACHERS OF BOSTON WILL SEE ISLANDS

Ten From School of Science
Due to Arrive in Honolulu
in Lurline July 27

An excursion to the Hawaiian islands under the direction of Prof. George H. Barton, director of the Teachers' School of Science of Boston, left the Massachusetts city Sunday. Besides Mr. Barton and his wife and daughter, the party is composed of 10 teachers. The party will arrive here July 27.

Professor Barton was formerly professor of geology in the Massachusetts Institute of Technology, and now gives the instruction in mineralogy and geology in the courses maintained by the intercollegiate commission on extension courses. He has conducted many parties to the Pacific coast and one to the Hawaiian islands. He is personally familiar with most places of interest in the United States and Canada, and having formerly been a member of the Hawaiian government survey, he has a thorough knowledge of the localities to be visited on those islands. Special attention will be given to the glaciers in Glacier park, to the volcanoes in Hawaii, and to the Grand Canyon of the Colorado.

One day will be spent in Minneapolis, where a visit will be made to the beautiful Minnehaha Falls and their interesting gorge. Five days will be spent in Glacier National park, including automobile, steamer and horseback rides to nearly all the important points. One day with two nights will be devoted to Rainier National park, including a most beautiful automobile drive. Thence the party will travel over the Shasta route to San Francisco, one of the finest scenic routes in America, affording beautiful views of Mount Shasta and its glaciers for many miles. Four or five days will be spent in San Francisco where a special automobile drive will be provided around the city to Golden Gate park, the Cliff House, etc., and opportunity given to visit the Panama-Pacific exposition.

In a specially prepared pamphlet Mr. Barton describes the trip to Hawaii as follows: "On Tuesday, July 29, the party will sail for Honolulu on the Matson Line S. S. Lurline, arriving in Honolulu after a restful voyage of five or six days across the quiet waters of the Pacific. The 21 days' stay in the Hawaiian islands will be divided between the three larger islands of Oahu, Maui and Hawaii. On the former, with Honolulu as headquarters, drives will be taken to the famous bathing beach of Waikiki, with its 'surf-riding,' around Diamond Head, the picturesque extinct volcanic cone; and through Nuuanu valley to the famous Pali (great precipice).

On Maui, the second largest island of the group, an ascent of Haleakala will be made. This great extinct volcano rises directly from the sea to a height of 10,032 feet, and has at its summit a crater that is 20 miles in circumference and 2500 feet deep. Then a trip will be made into the wonderfully picturesque Iao valley, said by Mark Twain to be the most beautiful valley in the world. Among other things that will be seen at Maui are the large sugar plantations, the village of Wailuku, and Lahaina, which was formerly the resort of the New England whalers.

On Hawaii, the largest island of the group, about the size of the state of Connecticut, the steamer touches at several very picturesque landing places, and passing along the northeastern side of the island has in view innumerable waterfalls plunging over the high cliffs which face the sea. The party will land at the beautiful tropical village of Hilo and while there will drive to the 'Onomea arch' and to the lava flow of 1880-81. Thence the journey will be continued by train and carriage to the active volcano of Kilauea, 4000 feet above the sea, where the party will stay in the Volcano House, on the edge of the crater. One day will be spent in a descent into the crater to the famous 'burning lakes' or 'lakes of fire.' Another day will be devoted to the koa forest and to the forest of tree ferns, and an opportunity given to visit the 'six craters,' a day's horseback trip.

On the return trip to Honolulu, via the southwestern side of the island, the steamer will make brief stops at Kealahou bay, the scene of the death of Captain Cook, who discovered the islands in 1778, and also at Kailua, the former residence of the pioneer missionary, Mrs. Thurston.

From Honolulu the party will return to San Francisco, remain two days in that city and then go to Santa Barbara, via "The Road of the Thousand Wonders," which runs directly beside the Pacific ocean for many miles.

Every retail dealer should read the valuable talks now given each day on his special problems. Page Nine.

Merchandise and treasure to the value of \$66,500,000 moved between Alaska and the United States in 1914, an increase of \$4,600,000 over 1913. As a market for our products, Alaska, having a population of only 65,000, is of equal importance with China, with a population of 336,000,000.

ARMY & NAVY

Pvt. John O. Mills, band, 1st Field Artillery, will be discharged from the army by purchase.

Pvt. Stuart S. Terry, quartermaster corps, has been transferred to the coast artillery, and ordered to Fort Ruger for duty.

Capt. D. L. Stone, 25th Infantry, has been granted a leave of absence of 23 days, to take effect on the arrival of the August transport at San Francisco.

First Lieut. Leo Samuelson, 1st Infantry, was a passenger on the coast-bound transport yesterday. He goes to the Pacific branch disciplinary barracks, Alcatraz Island, for duty.

Officers of the Oahu garrison reporting for duty or returning from leave on the transport Sherman, due here about July 12, are Maj. V. A. Caldwell, 25th Infantry; Capt. C. S. Hall 4th Cavalry; Capt. W. G. Fleischauer 25th Infantry; Lieut. V. W. Bolter 2d Infantry; Lieut. F. W. Pitts, 19th Infantry; Lieut. J. B. Corbly, 25th Infantry; Lieut. P. R. Manchester, 27th Infantry; Lieut. J. R. D. Matheson, C. E.; Lieut. A. K. B. Lyman, C. E.; Lieut. Geo. R. Callender, M. C.; Lieut. A. K. C. Palmer, 1st F. A.; Lieut. C. S. Little, 1st Infantry; Lieut. H. C. Vanderveer, 3d F. A.; Capt. H. M. Pales, 1st Infantry.

The new regulations by which heat and light allowances will be paid like commutation for quarters went into effect July 1. The rates for heat and light charges will be under Changes in Army Regulations Nos. 19 and 21. The new regulations will apply to enlisted men on detached service as well as to commissioned officers. Enlisted men will make application through their commanders for the allowances. The commanders will forward the application to The Adjutant General of the Army. Enlisted men on detached service with the Militia will apply through inspector-instructors on duty with the Militia. The entire scheme has been approved by the comptroller of the treasury, and the unsatisfactory system of reimbursement.

A SKIN OF BEAUTY IS A JOY FOR EVER
**Dr. T. FELIX GOURAUD'S
Oriental Cream
OR MAGICAL BEAUTIFIER**

Removes Pimples, Freckles, Moth Patches, Rash and Skin Diseases, and every blemish on beauty, and cures dandruff. Adopt no counterfeit of this beautiful (a patient) "As you ladies will use it, it is a recommendation." "Gouraud's Cream" is the most beautiful of all the skin preparations. At Drugists and Department stores.
Fort T. Higgins & Son, Props., 37 West Street, N. Y. C.

ment will come to an end by July 1. With the new regulations officers and enlisted men on detached service will know exactly what their heat and light allowances are to be. It will no longer require the services of an attorney to determine what this allowance is.

Thirteen officers now on duty with colleges must be relieved in 1915. Those who are to be relieved on account of the detached service law are: Lieut. H. T. Ball, Cav., Cornell University, on Nov. 2; Lieut. A. M. Durdett, Inf., University of Tennessee, July 13; Lieut. R. A. Hill, Inf., Kansas State College, Nov. 20; Lieut. R. B. Lincoln, Inf., Iowa State College of Agriculture, July 18; Lieut. E. E. McCammon, Inf., University of Washington, Seattle, July 14; Lieut. J. W. Merrett, Tennessee Military Institute, Nov. 14; Lieut. W. R. Pope, Cav., St. John's, Manlius, N. Y., July 7; Lieut. F. B. Terrell, Kemper Military Institute, Booneville, Mo., Aug. 27. Those who will be relieved on account of the expiration of three years' detail are: Lieut. J. Gaston, Inf., The Citadel, Charleston, S. C., June 15; Lieut. F. E. Wilson, Inf., Georgia Military College, Milledgeville, Ga., Sept. 15; Lieut. G. W. Ewell, Inf., Oklahoma Agricultural College, Dec. 15; Lieut. W. R. Kendrick, Inf., University of Georgia, Dec. 15.

The course at the Army War College was brought to a close on the evening of June 18, by a dinner at the Army and Navy Club. This year's class dinner and the one held last year was so successful that the annual class dinner will probably be made one of the features of the course at the college. They will be in a manner the commencement exercises of the War College. Col. John W. Ruckman, C. A. C., president of the class, presided as toastmaster. Brig.-Gen. Montgomery M. Macomb, president of the Army War College, and the members of the faculty were the guests.

Warships can be built by the government as cheaply as by private concern.

FALLS SIXTEEN FEET, LIGHTS ON CONCRETE FLOOR

(Special Star-Bulletin Correspondence)
WAILUKU, July 2.—At about 7:30 o'clock this morning there occurred an accident at the Wailuku Sugar Company machine shop that has cast a gloom over Wailuku. William R. Hansen, machinist in the mill, son of G. A. Hansen, fell to the floor while working on overhead machinery. Young Hansen fell 16 feet and struck on his head. When picked up by two Japanese workmen he was unconscious and his left hand and arm were very badly bruised, having been caught under him in the fall. The floor was somewhat oily and it is probable that Hansen had thought of no danger when he placed the ladder in position. There was nothing to break the fall, nor was there anything to catch hold of when the ladder slipped.

He was taken immediately to Mahanui hospital, where everything possible has been done for him. This afternoon his condition seemed a little more encouraging, though he is still unconscious most of the time.

On the opinion of Secretary of the Navy Daniels, and through a new system of accounting to be installed in navy yards after July 1, he hopes to demonstrate it.

In the past, in reckoning the cost to the government, every item of expense connected with the upkeep of the navy yards has been saddled on the alleged cost of warship construction by the government. Inasmuch as the yards have to be maintained anyhow, this is regarded by Secretary Daniels as an unfair system of accounting, and it will be modified.

SUMMER SCHOOL OPENS WITH BIG ATTENDANCE

With more than 100 students enrolled summer school opened at the territorial Normal school this morning, and will continue for four weeks. The school is in charge of Cyril O. Smith, principal of the Kapaa, Kauai, school. Following is the teaching staff:

Methods of teaching—T. H. Gibson; mathematics—W. C. Avery; geography—C. W. Baldwin; drawing and grammar—Miss Jessie Shaw; literature—teacher to be appointed; history—B.

O. Wist; agriculture—F. Clowes; vocational shop work—E. A. Creevy; hygiene and sanitation—Miss Pratt; domestic science—Mrs. Otramba.

A story of the death of D. L. Huntsman, who was shot and killed by August Herring, a part-Hawaiian, in this city in March, 1893, may be given by Sheriff Rose to Mrs. B. M. Shepard of San Jose, Cal., who has written the sheriff that Huntsman's mother is lying at the point of death at her home in California. The mother, it appears, had never heard of her son's death.
